

Instrumentation Container NORSOK Z-015

Custom-made Instrumentation Container certified according to DNV 2.7-1, manufactured in accordance with NORSOK Z-015 and special customer demands.

Features:

- Special lining to meet requirements for heavy equipment
- Reinforced floor and pneumatic sliding doors

General specification:

- One-off production to optimize solution for the client equipment
- 4,0 mm corrugated steel plates in the walls
- A 60 insulation; 70mm in the walls and 100 mm in the ceiling
- 2,0 mm painted, galvanized plates as lining
- Special PVC flooring
- Offshore grids
- Tare: 8000 kg

Standards:

- DNV 2.7-1
- NORSOK Z-015
- Machinery Directive

HVAC: EX approved; positive inside overpressure 100 Pa

Electrical installation:

- 690/400 V 60Hz 3 phase
- EX ceiling lights (400 lux)
- EX sockets
- PA cabling
- Wall mounted EX approved heater (1000 W)

Fire and gas detection/alarm system: Autronica System
Interface solutions: specially adapted to the vessel where to be used.
